Summary

Software Engineer with 4 years of experience in Python-based automation and backend systems in fintech and enterprise environments. Skilled in building scalable test automation frameworks using Playwright, API testing, and workflow automation. Strong expertise in REST APIs, CI/CD integration, and handling real-world edge cases to improve system reliability and reduce manual effort.

Experience

Software Engineer, Bruhm Services June 2025 – present

- Collaborated across teams to develop backend services using Python and Django and designed optimized PostgreSQL schemas for high-volume workforce activity data
- Implemented workforce tracking workflows including activity monitoring, attendance and reporting pipelines
- Implemented API testing using Python and validated responses using JSON schema
- Implemented CI/CD pipeline using GitHub Actions to run Playwright automation tests on code push
- Built end-to-end automation frameworks using Python and Playwright for UI and workflow testing
- Reduced manual testing effort by automating critical workflows, improving execution efficiency

Software Engineer, Inforvio Technologies Pvt Ltd June 2022 – May 2025

- Built a Golang-based integration platform connecting lenders, credit bureaus and financial services through unified APIs
- Developed backend services for a loan origination SaaS managing application lifecycle and lender routing
- Automated lender operations and portal interactions using GoFiber and Playwright
- Contributed to frontend features using React for operational dashboards and internal workflows
- Led on-site automation delivery at the client location in Pune, coordinating with a 3-member client team to ensure successful rollout

Software Engineer Intern, Inforvio Technologies Pvt Ltd Dec 2021 – May 2022

- Developed an Employer Categorization Module using Python, Django, and Playwright, enhancing data extraction and classification processes. Improved data handling efficiency and streamlined the categorization workflow for employers.

Tools & Technologies

Languages: Go (Golang), Python

Backend: Django, GoFiber, REST APIs, Third party integrations

Frontend: React.js

Automation: Playwright, API Testing, Test Case Design, Automation Frameworks

CI/CD: GitHub Actions

Database: MySQL, PostgreSQL

Education

PSG College of Technology, Master of Computer Application Aug 2019 – May 2022

- CGPA: 7.6/10

Sri Ramakrishna College of Arts and Science, B.Sc Information Technology Jun 2016 – May 2019

- CGPA: 6.0/10
